1. **Catalog Description (3 credit hours)** – Design of custom strategies to address real-life issues in the development of biocompatible and biomimetic devices for biotechnology or biomedical applications. Teams work with a client in the development of projects that incorporate various aspects of biomedical engineering including instrumentation, biomechanics, biotransport, tissue engineering and others. Emphasizes formal engineering design principles; overview of intellectual properties, engineering ethics, risk analysis, safety in design and FDA regulations are reviewed. Part 2 focuses on implementation and testing.

2. **Pre-requisites** – BME 4503, BME 4503L, and senior standing.

3. **Course Objectives** –
   - Apply the design process in a project resulting in a prototype medical device, circuit, system, process or algorithm with commercial potential
   - Learn the methods of identifying unmet clinical needs
   - Demonstrate the process of inventing, designing, and commercializing new medical devices and instruments
   - Learn to give effective, objective, and clear presentations
   - Learn to communicate design through efficient and effective technical writing
   - Understand the larger FDA regulatory framework for medical devices
   - Understand the professional and ethical obligations of a biomedical engineer

4. **Contribution of course to meeting the professional component** –
   3 credits of engineering topics with a design component

5. **Relationship of course to program outcomes** –
   The following ABET EAC Student Outcomes are covered in this course:
   (a) an ability to apply knowledge of mathematics, science, and engineering
   (c) an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
   (d) an ability to function on multidisciplinary teams
   (e) an ability to identify, formulate, and solve engineering problems
   (f) an understanding of professional and ethical responsibility
   (g) an ability to communicate effectively
   (h) the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
   (k) an ability to use techniques, skills, and modern engineering tools necessary for engineering practice
6. **Instructor** – Dr. Stephen Hugo Arce
   - Office location: NSC 410
   - Telephone: 392-0228
   - E-mail address: sarce@bme.ufl.edu
   - Class Web site: https://lss.at.ufl.edu
   - Office hours: By appointment

7. **Meeting Times and Locations** –
   - Lecture – Tuesdays, Period 7 (1:55 – 2:45), WEIL 234
   - Lab/Teams – Tuesdays, Periods 8-9 (3:00 – 5:00), NSC 406
     Thursdays, Periods 7-8 (1:55-3:55), NSC 406

8. **Class/laboratory schedule** – Weekly Lecture (1 period) & Lab (2 periods)

9. **Textbooks and Software Required** –
   - Textbook:
     - *Biodesign: The Process of Innovating Medical Technologies*
       Zenios, Makower, Yock
       Cambridge University Press, 2009, 1st Ed.
       ISBN number: 9780521517423
       Web: http://ebiodesign.org
   - Resources provided on e-learning course website
   - Permanently bound and numbered laboratory notebook

10. **Recommended Reading** –
    - Textbook:
      - *Product Design and Development, 3rd Edition*
        Ulrich, Eppinger
        ISBN number: 0072471468
        Web: http://www.ulrich-eppinger.net

11. **Course Outline**
    **Subject to change**

<table>

12. **Attendance and Expectations** – attendance is required for all scheduled lectures unless others noted by an e-learning announcement. Teams may meet outside of scheduled class periods to stay on track with prototyping.

13. **Grading** –
   - 45% Project Assignments (3 projects – 15% each)
   - 10% Instructor Assessment
   - 15% Self-Deadline Reviews
   - 10% Functioning Prototype
   - 20% Final Report & Presentation

14. **Grading Scale** –

   “A C- will not be a qualifying grade for critical tracking courses. In order to graduate, students must have an overall GPA and an upper-division GPA of 2.0 or better (C or better). Note: a C- average is equivalent to a GPA of 1.67, and therefore, it does not satisfy this graduation requirement. For more information on grades and grading policies, please visit: [https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx](https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx)

15. Requirements for class attendance and make-up exams, assignments, and other work are consistent with university policies that can be found at: [https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx](https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx)

16. **Honesty Policy** – UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code ([http://www.dso.ufl.edu/sscr/process/student-conduct-honor-code/](http://www.dso.ufl.edu/sscr/process/student-conduct-honor-code/)) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to
appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

Note that failure to comply with this commitment will result in disciplinary action compliant with the UF Student Honor Code Procedures. See http://www.dso.ufl.edu/sccr/procedures/honorcode.php

17. **Accommodation for Students with Disabilities** – Students Requesting classroom accommodation must first register with the Dean of Students Office. That office will provide the student with documentation that he/she must provide to the course instructor when requesting accommodation.

18. **UF Counseling Services** – Resources are available on-campus for students having personal problems or lacking clear career and academic goals. The resources include:
   · UF Counseling & Wellness Center, 3190 Radio Rd, 392-1575, http://www.counseling.ufl.edu/cwc/Default.aspx, counseling services and mental health services.
   · Career Resource Center, Reitz Union, 392-1601, career and job search services.
   University Police Department 392-1111

19. **Software Use** – All faculty, staff and student of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

20. Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at https://evaluations.ufl.edu. Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at https://evaluations.ufl.edu/results/.
